

Don't let your business change faster than your business insurance.

Please contact your HUB broker for more information:

Ever-changing technologies expose your business to ever-changing risks. Can your existing business insurance keep up?

Backed by the underwriting and claim excellence of **CNA**

We understand the technology risks you face today. We're ready for the inevitable changes to come.

Technology businesses need to be on the leading edge, and your company needs an insurance advisor who thinks the same way. Let HUB International help. As one of the largest independent insurance brokers in North America, we specialize in helping technology businesses of all sizes find the right risk management solution. We've teamed with CNA, one of the nation's largest property and casualty insurers, to bring you a new and unique solution.

A dedicated technology program backed by the strength of CNA

HUB Technology Solutions was developed in response to industry demand for broader and more flexible coverage options. By teaming with CNA, we offer a dedicated program for technology companies that combines decades of industry expertise, an “A” rating for financial strength, world-class risk control services and a best-in-class reputation for claim handling. By proactively managing risk, we help businesses achieve and maintain a higher level of performance.

Smart solutions and a commitment to service

We understand every technology business is unique. At HUB International, we take the time to understand your specific exposure to risk and identify the insurance products, risk reduction strategies and loss mitigation techniques that will strike the right balance in your risk portfolio. Further, we assist you in expediting claims, and periodically evaluate the effectiveness of your plan to ensure it continues to meet your needs and objectives now and into the future.

We balance the strength of an international firm with the accessibility of a local broker.

HUB International is structured around large regional “hubs” with more than 200 satellite offices strategically located throughout the United States and Canada. Locally, we offer personal service, individual attention and the ability to respond quickly to our client’s changing needs. Collectively, the hubs are a knowledge powerhouse providing tailor-made solutions that are designed by drawing upon our combined skills and expertise.

Coverage highlights

Property AdvanceSM

CNA’s premier property product provides you with more robust property coverages with expanded limits, broadened coverage, and in many cases, industry-specific coverages.

Industry-specific Property Endorsements

Covering unique exposures including research and development restoration, communication towers at unnamed locations, research and development business income.

Technology Casualty Forms

Comprehensive General Liability, Automobile, Workers’ Compensation and Umbrella coverages are all available.

Optional Coverages Available Through CNA

Personal & Advertising Injury Extension, Electronic Data Liability, EcoCare Property Endorsement and Composite Rate Endorsements as well as specialty coverages like CNA Connect[®] (business owners package), Crime, Marine/Cargo, Earthquake, Flood, Large Property and Loss Sensitive Casualty Programs.

International Coverage

Through the Passport[®], WorldPass[®] and Defense Base Act Coverage / Maritime Employers Liability Programs, CNA can provide service in 100 countries on six continents through an international network of branch offices and long-standing strategic relationships.

Errors & Omissions

Global Tech E&O coverage can be coordinated with General Liability and CNA NetProtect[®] products to close gaps without potential duplication of coverage.

Information Risk and Cyber Coverage

NetProtect Essential[®]

Provides cyber coverage when a data breach results in privacy injury, identity theft, network damage resulting in theft of others’ information in your care.

NetProtect 360SM

Offers both first- and third-party cyber coverage as separate coverage parts. First-party coverage is available for extortion, business interruption, loss or damage to a network, extra expense and e-theft. Third-party liability is available for electronic media content, privacy liability and security liability.

Management Liability

EpacSM provides the flexibility of integrating coverages for a wide range of insurance exposures. You can select a multi-line package with two or more coverages or a stand-alone policy.
