

The Coronavirus (COVID-19) pandemic is an unparalleled event in the insurance industry. At HUB, we have a pandemic claims team designed to be an extension of your risk management team.

Reporting COVID-19 Claims

Time is of the essence in the claim evaluation process. The HUB Pandemic Claims Team will assist in the gathering of pertinent data and the timely filing of your Coronavirus claims. Together, we will help you answer:

1. When should I file a claim?
2. Do you have your complete policy?
3. What documentation is needed to file a business interruption claim?
4. Is there Workers' Compensation coverage for COVID-19?
5. What is the "Cause of Loss" to trigger coverage?

Once we have the information, we will work with you to file a claim to the appropriate carrier immediately, provide complete details related to the claim, and secure all exclusions and endorsements for interpretation.

About the HUB Pandemic Claims Team

This dedicated team is comprised of claims experts that are located throughout the United States and Canada. That means we have the resources and insights to help you with your specific regional needs.

Strategic Pandemic Claims Management

- Weekly pandemic carrier analysis calls
- Educational webinars
- Collaboration with counsel to determine the extent of coverages
- Claims line expertise aligned with industry specialties
